EMERALD RSS FEEDS

RSS

Using RSS allows you to see when sites from all over the internet have added new content. You can get the latest headlines and articles in one place, as soon as they are published, without having to remember to visit each site every day.

In general, the first thing you need is a news or RSS reader. This is a piece of software that checks RSS feeds and lets you read any new articles that have been added to them.

If you have Windows XP and Internet Explorer 7, the RSS feeds will appear in your Favourites button.

RSS Feeds from Emerald Journals

The services are free. Users must register in order to take advantage of these services:

1. To access this database go to: http://w2.vu.edu.au/library/databases/emerald.html
2. Click on My Profile
3. Enter your Emerald username and password (for a first time user, you will need to register)
4. Click on Journals and databases.
5. Click on A to Z Journal Listing, OR the Subject Listing.

6. Choose your desired journal by clicking on it.
7. Click on Subscribe to this feed.
8. You will see an orange RSS logo,
9. Click on Table of Contents Feed
10. Click on 'subscribe to this feed'
11. Click on 'subscribe' in the pop up box.
12. You can then click on 'view my feeds'
13. To unsubscribe, right click on the journal title under favorites in IE and 'delete'.
